Off-Site SEO Execution Kit — expressrepairs.com.au

Turnkey, copy-paste assets for the off-site pillars of the [SEO plan](#) (GBP, reviews, citations). Everything here is written out so execution is **paste-and-publish** — no drafting required.

The one rule that makes all of this work: keep the NAP identical everywhere.

Business name **Xpress Phone Repairs**, address **Shop 7C, Riverwood Plaza, 257 Belmore Rd, Riverwood NSW 2210**, phone **0415 303 300**. The site now leads with the **mobile (0415 303 300)** as its primary number, so use that as the **primary phone on the GBP and every citation** to keep the NAP consistent — you can list the **(02) 9533 3300** landline as an optional *secondary* number.

9. The only recurring tasks (minimal effort)

- **Reply to every Google review** within a few days (~5 min each) — highest-value habit.
- **1 GBP Post per 1–2 weeks** — batch a month at a time from \$6.
- **Ask for a review at every pickup** — QR card + the SMS in \$7.
- **2–3 fresh photos / month** to the GBP.
- **Monthly 10-minute glance** at GBP Insights (calls, direction requests, website clicks) and Search Console (which suburb terms are gaining) — let that decide any new suburb pages.

10. First-week launch runsheet (start here)

Everything above is a library; this is the order to roll it out. ~15 min/day for four days, then it runs on the §9 cadence.

- **Day 1 (15 min) — GBP core.** Confirm primary + additional categories (§1), paste the description (§2), and check hours incl. **Thursday to 7pm**. Send the §7 pickup SMS to your last 10 happy customers.
- **Day 2 (20 min) — Photos + first post.** Upload 12–15 real photos from the §4 shot-list. Publish §6 Post #1.
- **Day 3 (15 min) — Q&A + services.** Seed the 8 §5 Q&As (post the question, then answer it). Add the §3 services with prices.
- **Day 4 (10 min) — Review card.** Print `docs/print/review-card.html`, stand it at the till, and add the QR to receipts.
- **Then ongoing:** the §9 recurring tasks (1 post/week from your banked 6, 2–3 photos/month, reply to every review).

Review velocity — make it a number. Target **5+ reviews/month** (past 50 by year-end). Ask every customer at pickup — never gate to only the happy ones (breaches Google + ACCC rules). Track asks vs received on the printable till sheet (`docs/print/till-tally.html`), and reply to every review within 48h using the §7 templates.

11. Holiday special-hours — set these in GBP

A wrong holiday listing costs a walk-in and risks a “they were closed” 1-star, and Google shows a “hours may differ” warning until you set them. In **GBP** → **Edit hours** → **Special hours**, add each upcoming NSW public holiday (set your real open/closed — easiest is to mirror whatever Riverwood Plaza trades that day):

Date	NSW public holiday	Your hours
Mon 5 Oct 2026	Labour Day	☐ open – ☐ closed
Fri 25 Dec 2026	Christmas Day	☐ open – ☐ closed
Sat 26 Dec 2026	Boxing Day	☐ open – ☐ closed
Mon 28 Dec 2026	Additional holiday (Boxing Day fell on a Saturday)	☐ open – ☐ closed
Fri 1 Jan 2027	New Year's Day	☐ open – ☐ closed
Tue 26 Jan 2027	Australia Day	☐ open – ☐ closed

Dates are firm, but worth a 10-second check at nsw.gov.au/about-nsw/public-holidays. Set each one as soon as it's ~2 weeks out so Google surfaces it in time.
